TECHNOLOGIES

Everyday use

Kotlin Spring boot Hibernate
Java ORACLE / PostgreSQL
Docker Linux

Free time self development

JS TS React Android
Jetpack Compose

Basic knowledge

Flutter Python Flask Django

LANGUAGES

Polish
Native

English
Advanced C1

INTERESTS

Violin Ukulele Gym

WORK HISTORY

Software Engineer

Google

11/2022 - Present

Junior Software Engineer

Atlassian

07/2021 - 11/2022

Deconstruction to microservices and development of resolver for Jira Query Language (SQL-like language used for searching issues in Jira), which enables scaling for big clients in cloud. Creation of tree data structure from string query, optimization and resolution of input to database ids.

Kotlin, Spring boot, ANTLR, PostgreSQL.

Mentor IT

Codecool

08/2021 - 05/2022

Prepared and conducted classes with a group of students featuring basics of OOP, SOLID, SQL, algorithms and data structures, spring boot environment.

I took part in preparing students to be software developers, which resulted in about 80% of them getting their first job in the industry.

Junior Software Engineer

SoftNet

07/2020 - 06/2021

Development and maintenance of online banking system, used by bank clients via webpage and android app.

Spring boot RESTful backend, hibernate, JDBC, Android application, Retrofit. Practised SCRUM and CI/CD. Unit, integration and contract testing.

PERSONAL PROJECTS

Kraksim [Frontend](#) [Backend](#)

Website written in Typescript + React with backend in Kotlin + Spring Boot for modeling and optimisation of road traffic made as part of Bachelor's degree thesis.

Qook [App](#) [Backend](#)

Android Kotlin app with Spring boot backend for storing recipes and helping with shopping.

ProductChecker [Project](#)

Mobile app for managing product ownership in post supply chain written in Flutter.

EDUCATION

Computer Science

Warsaw University of Technology

03/2022 - Present

Computer Science

AGH University of Science and Technology

10/2018 - 01/2022

Bachelor's degree, thesis topic - "Environment for modeling and optimisation of road traffic".
